INFORMATION TO AUTHORS

Contributions, written in English, French or German, and books for review may besent either directly to the Editor, Professor K. Siegbahn, Institute of Physics, University of Uppsala, Sweden, or to one of the members of the Editorial Board.
Short contributions of *less than 1500 words* and not subdivided into sections, may be published as Letters to the Editor, in a shorter time than regular articles as the proofs will normally be corrected by the publisher.
Review articles, written in English, may be sent directly to the Editor.

*Before mailing the manuscript, please check the following points:*
1. Is there an *abstract* in English? (Letters to the Editor should have an abstract of *less than 30 words*.)
2. Have you given the name(s) of the author(s) on the manuscript and the name and address of the institute where the research work was done? (Proofs will be sent by the publisher to this address.)
3. Is the manuscript clearly typewritten, with ample space between the lines, is the subdivision logical, and are the text and figures *ready for printing*? (It is impracticable to send alterations during the printing process. The galley proof which will be sent to you serves only to correct actual printing errors and to make a slight change or addition, if *strictly necessary*.)
4. Have you enclosed inked original drawings, or (*preferably not*) glossy prints of every figure, ready for direct reproduction? Are all details, especially the lettering and numbering, sufficiently large to show up clearly in the reduced size of the printed figure? (The consequence of making the slightest changes in the figures of the galley proof is that in most cases *new blocks* must be made.) Your figure material will be returned to you after publication of the article.
5. Is there a *separate* list of the figure captions? (All figures should have captions.)
6. Is the list of references complete, in accordance with the convention of the journal and are all author's initials given in all references?

Objective and descriptive material on endeavours and product developments from the industry for the section "Spotlight on Industry" should be sent directly to the publishers, North-Holland Publishing Company, P.O. Box 3489, Amsterdam.
